

XOY CLIPPER 1.0

Louder. Tighter. Meaner.

XOY CLIPPER is a modern brickwall clipper designed to add weight, punch, and presence to your mix – without losing control. With visual feedback, automatic makeup gain, and an analog-inspired edge, it's built for loudness with taste.

Whether you're mastering a track or smashing a snare, XOY CLIPPER keeps your dynamics in check and your transients in shape.

How it works

The main **THRESHOLD** knob sets how much of the signal is clipped. Pull it down to tame peaks and add harmonic energy. Push it hard to bring out character and glue.

Choose between two clipping styles with the **SOFT/HARD** switch:

- **HARD** delivers precise brickwall-style clipping with strong edge.
- **SOFT** smooths the harshest peaks while still applying firm limiting — great for a more natural feel.

A glowing ring around the knob reacts to clipping intensity, giving you a clear visual of how much you're pushing the signal.

XOY CLIPPER automatically adjusts output gain to maintain consistent loudness even as you increase clipping.

XOY Sound Signature

Even when you're not clipping, XOY CLIPPER adds a subtle transistor-style tone that enhances the sound. It's designed to always bring a hint of analog punch – from gentle loudness maximization to full-on aggression.

Why you'll love it

- Intuitive visual feedback for clipping
- Analog edge even without heavy drive
- Soft and hard clipping modes
- Automatic makeup gain
- Fast workflow – no menus, no distractions
- Use it on drums, master bus, synths, or anything that needs punch

Format & Compatibility

XOY CLIPPER is available as:

Audio Unit (AU) — Logic Pro, MainStage, etc.
VST3

macOS 12 or newer is recommended.

Windows version is not planned at this time.

Plugin Info

Plugin name in DAW: XOY CLIPPER

Developer: XOY Production AB

Version: 1.0.0

License: Free to use in your productions. All rights reserved.

Installation (macOS)

Copy the .component file to:

~/Library/Audio/Plug-Ins/Components

Copy the .vst3 file to:

~/Library/Audio/Plug-Ins/VST3

Restart your DAW.

Look for **XOY CLIPPER** in your plugin list under Effects.
